

Oncentra[®] MasterPlan

Giving you greater choice than ever before

Oncentra MasterPlan from Nucletron enables you to plan and evaluate the most efficient treatment for your patient, whichever treatment modality you use. It is compatible with all treatment modalities and is DICOM-compliant, allowing you to compare and evaluate plans wherever you work and at any time. MasterPlan's comprehensive range of tools means you can select the treatment method that you prefer, thereby helping you to achieve the best results for each particular patient. So when it comes to treatment planning, you have more choice than ever before.
